- FDA Certified Materials
- Our range includes PTFE joint sealant, expansion joints & spiral wound gaskets
- Custom shapes by arrangement

Garlock
SEALING TECHNOLOGIES

SILICONE EXTRUSION

- Excellent resistance to temperature extremes and chemicals
- FDA Certified Materials
- Huge choice of colours
- Custom shapes by arrangement
- Shore hardness range: 30 SH to 80 SH

QUALITY TECHNICAL SEALING SOLUTIONS

H-ECOPUR UNION SEALS

SKF H-Ecopur is an FDA compliant, hydrolysis-resistant, thermoplastic polyurethane elastomer (TPU).

SKF H-Ecopur has a proven track record as the optimum Union Seal material.

SKF H-Ecopur has been tried and tested in many of New Zealand's Dairy plants, where results have exceeded expectation for quality, performance and longevity.

SKF H-Ecopur is available in red and natural colouring, and is machined to provide a highly accurate product with a superior defect free finish.

SKF H-Ecopur has an outstanding resistance to common CIP media and clean down processes.

Benefits:

- Quality
- Tractability
- FDA Certified Materials
- Fast turn round on manufactured Seals & Kits
- Minimum Stock holding by customer
- Longevity
- No cracking or feathering – Reduces contamination & bacterial traps
- Reduction of Foreign Matter entering product from seals

Common styles include:

- RJT
- RJT – O-Ring type
- Camlock
- DIN
- Tri-Clover (flanged and un-flanged)
